English Bridge Course • Beginner Level

1. Learning Objectives

By the end of this chapter, learners should be able to identify the main parts of speech, explain their basic functions, and use them correctly in simple sentences.

2. What Are Parts of Speech?

Parts of speech are groups of words classified according to the job they do in a sentence. English commonly uses eight major parts of speech: noun, pronoun, verb, adjective, adverb, preposition, conjunction, and interjection.

Part	Main Function	Example
Noun	Names a person, place, thing, or idea	teacher, Nepal, book
Pronoun	Replaces a noun	he, she, they
Verb	Shows action or state	run, write, is
Adjective	Describes a noun/pronoun	beautiful, five
Adverb	Describes a verb, adjective, or adverb	quickly, very
Preposition	Shows relationship	in, on, under
Conjunction	Joins words or clauses	and, but, because
Interjection	Expresses sudden feeling	Wow!, Oh!

3. Nouns

A noun is a word that names a person, place, animal, thing, or idea. Examples: student, Kathmandu, dog, computer, honesty.

Types of Nouns

Common noun: general name (city, teacher). Proper noun: specific name (Kathmandu, Maya). Concrete noun: something that can be sensed (table). Abstract noun: an idea or quality (freedom, kindness).

Example: **Deepana** is a **student**. “Deepana” is a proper noun and “student” is a common noun.

4. Pronouns

A pronoun is used instead of a noun to avoid repetition. Common pronouns include I, you, he, she, it, we, they, me, him, her, us, and them.

Example: **Rita is a student. She studies English.** Here, “she” replaces “Rita.”

5. Verbs

A verb expresses an action, event, or state. Action verbs include eat, walk, study, and play. Linking/state verbs include be, seem, become, and feel.

Examples: They **play** football. She **is** happy. We **study** every day.

6. Adjectives

An adjective describes or gives more information about a noun or pronoun. Examples: a **beautiful** flower, a **large** house, **three** books.

7. Adverbs

An adverb commonly describes how, when, where, or how often an action happens. Examples: quickly, yesterday, here, always.

Examples: She speaks **clearly**. He arrived **yesterday**. They **often** study together.

8. Prepositions

A preposition shows the relationship between a noun/pronoun and another word. Common examples are in, on, at, under, beside, between, from, and to.

Use	Examples
Time	at 7 o'clock, on Monday, in July
Place	in the room, on the table, under the chair
Direction	to school, from Nepal, into the room

9. Conjunctions

Conjunctions connect words, phrases, or clauses. Common coordinating conjunctions include and, but, or, so, and yet. Example: I wanted to go, **but** it was raining.

10. Interjections

Interjections express strong or sudden feelings. Examples: Wow! Oh! Hurrah! Ouch! Example: **Wow!** That is amazing.
